Friday 16th March

Dear Parents/Carers,

What a lovely week we have had at nursery focusing on Opposites. The children have enjoyed learning all about loud and quiet using a range of musical instruments. The children also learnt that depending on how slow/fast or hard/soft the instruments were played determined as to whether they were loud or quiet ☺ The children enjoyed making their own musical instruments using paper tubes with lids and a range of pasta and rice poured inside. This morning the children have enjoyed making happy and sad pizza faces. A little note from playball below;

Dear Parents,

Two bonuses for this weeks session - sunshine and being outside !!! For the children it was a long session with lots of games and movement but they all worked really hard. We used the outside space to its full potential and we started with a warm up. We then moved into a circle and practised our throwing and running. We also played a game involving colour recognition and listening. We then played a game involving lots of different stability skills. We pretended we were on the moon and we had different stations. On one station we had to jump over craters backwards and forwards. On another station, we had to do star jumps and on the final station, we did moonwalks and in-between we had to run back to the spaceships. We also built a circuit which involved jumping, zigzagging, running and hurdles. We finished the session with a number of games including pirates, racing cars and tennis ball "it". So lots of running and dodging.
